Medium	Pass					All images on the Home Page should have an alt tag with a relevant and informative description of the image.	1. Navigate to the Home Page. 2. Right-click on various images on the Home Page and select "Inspect" or "Check Element". 3. Look for the alt="" tag in the HTML code of the image.	Alt tags for Home Page Images	בדיקה שמטרתה לוודא כי המוצר מונגש בצורה תקינה למשתמשים בעלי מוגבליות.	Accessibility		home page	1
Low	Fail		DOM Warning		Warning [DOM] Found 3 elements with non-unique id #formbutton appears in the console.	Every HTML element should have a unique ID.	1. Navigate to the Home Page. 2. Inspect the HTML code of the page (using developer tools).	Element ID Uniqueness (Buttons)	בדיקה שמטרתה לוודא כי המוצר מונגש בצורה תקינה למשתמשים בעלי מוגבליות.	Accessibility	MGY-12	home page	2
Medium	Fail		JS Error: DataStore Issue		Error ErrorUtils caught an error: DataStore.get: namespace is required, got undefined appears in the console.	Data should load and operate with a defined namespace.	1. Navigate to the Home Page.	Data Retrieval	בדיקות שמטרתן לוודא כי כל הדרישות המופיעות בFD מתממשות בצורה תקינה במערכת. המערכת מבצעת מה שהיא אמורה לבצע ולא מבצעת מה שלא אמורה לבצע	Functionality	MGY-11	home page	3
Medium	Fail		JS Error: Element Not Found		Errors ErrorUtils caught an error: Could not find element "u_1_1h_HZ", u_1_3_7m", and u_1_0_jR" appear in the console.	All third-party elements and scripts (e.g., Facebook, Firebase) should load and function without errors.	1. Navigate to the Home Page.	Element/Third-Party Code Loading (Facebook/Firebase)	בדיקות שמטרתן לוודא כי כל הדרישות המופיעות בFD מתממשות בצורה תקינה במערכת. המערכת מבצעת מה שהיא אמורה לבצע ולא מבצעת מה שלא אמורה לבצע	Functionality	MGY-10	home page	4
Low	Fail		Firebase Messaging Error		Notifications are blocked. messaging/notifications-blocked and messaging/permission-blocked errors appear in the console.	The site should attempt to display a notification permission request or display existing notifications.	1. Navigate to the Home Page.	Notification System	בדיקות שמטרתן לוודא כי כל הדרישות המופיעות בFD מתממשות בצורה תקינה במערכת. המערכת מבצעת מה שהיא אמורה לבצע ולא מבצעת מה שלא אמורה לבצע	Functionality	MGY-9	home page	5
Highest	Fail		JS Error		The range slider does not respond (or is not displayed). Red error Uncaught TypeError: $(...).ionRangeSlider is not a function appears in the console.	The range slider should respond to dragging and change values/display data.	1. Navigate to the Home Page. 2. Attempt to drag the range slider (if visually present).	Range Slider on Home Page	בדיקות שמטרתן לוודא כי כל הדרישות המופיעות בFD מתממשות בצורה תקינה במערכת. המערכת מבצעת מה שהיא אמורה לבצע ולא מבצעת מה שלא אמורה לבצע	Functionality	MGY-7	home page	6
Medium	Pass					Each link should open successfully in a new tab/window and redirect to the appropriate Matnas page on the social network.	1. Navigate to the Home Page. 2. Locate social media icons/links (Facebook, Instagram, etc., if present). 3. Click on each one.	Social Media Links	בדיקות שמטרתן לוודא כי כל הדרישות המופיעות בFD מתממשות בצורה תקינה במערכת. המערכת מבצעת מה שהיא אמורה לבצע ולא מבצעת מה שלא אמורה לבצע	Functionality		home page	7
Highest	Pass					Each link should lead to the correct and relevant page (no 404 errors, redirects, or redirection loops).	1. Navigate to the Home Page. 2. Click on each link in the main navigation bar (e.g., "אודות", "חוגים", "אירועים", "גלריות", "צור קשר").	Top Navigation Bar Links	בדיקות שמטרתן לוודא כי כל הדרישות המופיעות בFD מתממשות בצורה תקינה במערכת. המערכת מבצעת מה שהיא אמורה לבצע ולא מבצעת מה שלא אמורה לבצע	Functionality		home page	8

Priority	Pass / Fail	Analyst Notes	Error Type	Comments / Jira Bug ID	Actual Result	Expected Result	Steps to Execute	Test Item	Test Purpose	Test Type	Jira Code	Module	'on
Low	Pass					Every element in the Footer is displayed correctly, aligned, readable, with no overlaps or unnecessary horizontal scrolling.	1. Navigate to the Home Page. 2. Scroll to the bottom of the page (Footer). 3. Verify that all elements (address, phone, copyright, links) are displayed in a neat and readable manner, without overlap or unnecessary horizontal scrolling.	Footer Element Layout	בדיקה שמטרתה לוודא כי הממשק הגרפי למשתמש עומד בהגדרות/ מפרט עיצובי וגרפי בהיבטים שונים.	GUI		home page	9
Medium	Fail		Network Error: Forbidden		Font Awesome icons are not displayed (may appear as empty squares). GET https://kit.fontawesome.com/... 403 (Forbidden) error appears in console/Network tab.	Font Awesome icons should be displayed normally.	1. Navigate to the Home Page. 2. Verify the display of icons (e.g., social media icons, arrows, etc.).	Font Awesome Icons	בדיקה שמטרתה לוודא כי הממשק הגרפי למשתמש עומד בהגדרות/ מפרט עיצובי וגרפי בהיבטים שונים.	GUI	MGY-15	home page	10
Medium	Pass					The banner/slider is displayed clearly, without cropped or pixelated images, and navigation between them works.	1. Navigate to the Home Page. 2. Verify that the main banner/slider appears. 3. Check that images/videos are displayed clearly. 4. Check that scrolling or transitioning between slides works.	Main Banner/Slider Display	בדיקה שמטרתה לוודא כי הממשק הגרפי למשתמש עומד בהגדרות/ מפרט עיצובי וגרפי בהיבטים שונים.	GUI		home page	11
Medium	Fail		Network Error: Not Found		Product images are missing/not displayed. GET https://www.matnasganyavne.org/productImages/... 404 (Not Found) errors appear in console/Network tab.	Product images should load and be displayed correctly.	1. Navigate to the Home Page. 2. Verify the display of product images in relevant sections (e.g., "פסטיבל ארבעת המינים").	Product Images Display	בדיקה שמטרתה לוודא כי הממשק הגרפי למשתמש עומד בהגדרות/ מפרט עיצובי וגרפי בהיבטים שונים.	GUI	MGY-8	home page	12
Lowest	Fail		Deprecated Code Usage		Warning [Deprecation] Listener added for a 'DOMSubtreeModified' mutation event appears in the console.	The site code should use updated and supported browser methods.	1. Navigate to the Home Page.	Deprecated Code Usage	בדיקה שמטרתה לוודא כי המערכת/ הקוד פתוח וגמיש לשינויים עתידיים.	Maintainability	MGY-14	home page	13
Low	Fail		Configuration Warning		Warning It looks like you're using the development build of the Firebase JS SDK. appears in the console.	The site code should use the Production version of Firebase SDK.	1. Navigate to the Home Page.	Firebase SDK Usage (Production)	בדיקה שמטרתה לוודא כי המערכת/ הקוד פתוח וגמיש לשינויים עתידיים.	Maintainability	MGY-13	home page	14
Highest	Pass			(Refer to PageSpeed Insights ID)		The page loads at a reasonable speed (as expected) and all elements appear quickly and smoothly.	1. Navigate to the Home Page. 2. Observe page load time (e.g., use PageSpeed Insights, or browser developer tools - Network tab).	Home Page Load Speed	לוודא שזמני התגובה של המערכת לפעולות שונות ותהליכים עסקיים שונים, עומדים בקריטריונים/ תקנים ודרישות.	Performance		home page	15
Medium	Pass					Scrolling is smooth, without jumps or freezes. All content loads and displays correctly during scrolling.	1. Navigate to the Home Page. 2. Scroll up and down continuously.	Home Page Scrolling	בדיקה שמטרתה לוודא כי השימוש במוצר קל ופשוט, להתקנה ולתפעול ידידותי, מכיל הודעות ברורות. בודקים איך המשתמשים מתמודדים איתו.	Usability/UX		home page	16
Low	Fail	DOM Warning / Accessibility Issue	DOM Warning		Warning [DOM] Found 2 elements with non-unique id #formbutton (buttons "כניסה", "חפש") appears in the console.	Every HTML element should have a unique ID.	1. Navigate to the "Gallery" tab in the main navigation menu. 2. Inspect the HTML code of the page (using developer tools).	Element ID Uniqueness (Buttons)	בדיקה שמטרתה לוודא כי המוצר מונגש בצורה תקינה למשתמשים בעלי מוגבליות.	Accessibility		Gallery	17
Medium	Fail		JS Error		Error Uncaught (in promise) TypeError: Cannot set properties of null (setting 'textContent') appears in the console.	All elements and scripts should load and function without errors.	1. Navigate to the "Gallery" tab in the main navigation menu.	Elements/Code Loading (JavaScript)	Element/Code Loading	Functionality		Gallery	18

| Priority	Pass / Fail	Analyst Notes	Error Type	Comments / Jira Bug ID	Actual Result	Expected Result	Steps to Execute	Test Item	Test Purpose	Test Type	Jira Code	Module	'on
Low	Fail		Firebase Messaging Error		Notifications are blocked. Errors messaging/notifications-blocked and messaging/permission-blocked appear in the console.	The site should attempt to display a notification permission request or display existing notifications.	1. Navigate to the "Gallery" tab in the main navigation menu.	Notification System	בדיקות שמטרתן לוודא כי כל הדרישות המופיעות בFD מתממשות בצורה תקינה במערכת. המערכת מבצעת מה שהיא אמורה לבצע ולא מבצעת מה שלא אמורה לבצע	Functionality		Gallery	19
Highest	Fail		JS Error		The range slider does not respond (or is not displayed). Red error Uncaught TypeError: $(...).ionRangeSlider is not a function appears in the console.	The range slider should respond to dragging and change values/display data.	1. Navigate to the "Gallery" tab in the main navigation menu. 2. Attempt to drag the range slider (if visually present on the page).	Range Slider on Gallery Page	בדיקות שמטרתן לוודא כי כל הדרישות המופיעות בFD מתממשות בצורה תקינה במערכת. המערכת מבצעת מה שהיא אמורה לבצע ולא מבצעת מה שלא אמורה לבצע	Functionality		Gallery	20
Medium	Pass					The sub-menu should open and close correctly, and its links should lead to the correct pages.	1. Navigate to the Home Page. 2. Hover/Click on a menu item with a sub-menu. 3. Click on links within the sub-menu.	Sub-Menu Dropdowns	בדיקות שמטרתן לוודא כי כל הדרישות המופיעות בFD מתממשות בצורה תקינה במערכת. המערכת מבצעת מה שהיא אמורה לבצע ולא מבצעת מה שלא אמורה לבצע	Functionality		Gallery	21
Medium	Pass					It should be possible to navigate between all menu items using the Tab key, and they should be clearly visually highlighted upon movement.	1. Navigate to the Home Page. 2. Press the Tab key and check the movement between menu elements.	Keyboard Navigation (Tab Key)	בדיקות שמטרתן לוודא כי כל הדרישות המופיעות בFD מתממשות בצורה תקינה במערכת. המערכת מבצעת מה שהיא אמורה לבצע ולא מבצעת מה שלא אמורה לבצע	Functionality		Gallery	22
Medium	Fail		Network Error: Forbidden		Font Awesome icons are not displayed (may appear as empty squares). GET https://kit.fontawesome.com/... 403 (Forbidden) error appears in console/Network tab.	Font Awesome icons should be displayed normally.	1. Navigate to the "Gallery" tab in the main navigation menu. 2. Verify the display of icons (e.g., social media icons, arrows, etc.) on the gallery page.	Font Awesome Icons (Gallery)	בדיקה שמטרתה לוודא כי הממשק הגרפי למשתמש עומד בהגדרות/ מפרט עיצובי וגרפי בהיבטים שונים.	GUI		Gallery	23
Medium	Fail		Network Error: Not Found		Many images are missing/not displayed. Multiple GET https://www.matnasganyavne.org/productImages/... 404 (Not Found) errors appear in console/Network tab.	Gallery images should load and be displayed correctly.	1. Navigate to the "Gallery" tab in the main navigation menu. 2. Verify the display of images in the gallery.	Gallery Image Display	בדיקה שמטרתה לוודא כי הממשק הגרפי למשתמש עומד בהגדרות/ מפרט עיצובי וגרפי בהיבטים שונים.	GUI		Gallery	24
Medium	Pass					The main menu should be displayed correctly and legibly at all screen sizes (e.g., mobile hamburger menu opens and closes correctly).	1. Navigate to the Home Page. 2. Change the browser window size (Resizing) or test on a mobile device.	Menu Display on Various Views	בדיקה שמטרתה לוודא כי הממשק הגרפי למשתמש עומד בהגדרות/ מפרט עיצובי וגרפי בהיבטים שונים.	GUI		Gallery	25
Low	Fail		Configuration Warning	Best Practice Issue	Warning It looks like you're using the development build of the Firebase JS SDK. appears in the console.	The site code should use the Production version of Firebase SDK.	1. Navigate to the "Gallery" tab in the main navigation menu.	Firebase SDK Usage (Production)	בדיקה שמטרתה לוודא כי המערכת/ הקוד פתוח וגמיש לשינויים עתידיים.	Maintainability		Gallery	26
Medium	Pass					The link for the current page (e.g., "Gallery") should be highlighted or have a clear visual indication that it is the active page.	1. Navigate to the "Gallery" tab in the main navigation menu. 2. Check the main menu.	Current Page Indication	בדיקה שמטרתה לוודא כי המערכת/ הקוד פתוח וגמיש לשינויים עתידיים.	Maintainability		Gallery	27
Medium	Fail		Runtime Error		Error Unchecked runtime.lastError: Could not establish connection. Receiving end does not exist. appears in the console.	Internal communication within the browser (e.g., with extensions) should work without errors.	1. Navigate to the "Gallery" tab in the main navigation menu.	Internal Communication/Browser Extensions	בדיקה המתבצעת ע"י חיבור של יחידות למודולים בודדים, המתחברים למערכת או לתת מערכת ומשפיעים אחד על השני.	Integration		Gallery	28

Priority	Pass / Fail	Analyst Notes	Error Type	Comments / Jira Bug ID	Actual Result	Expected Result	Steps to Execute	Test Item	Test Purpose	Test Type	Jira Code	Module	'on
Highest	Pass					Each link should lead to the correct and relevant page (no 404 errors, wrong redirects, or infinite loops).	1. Navigate to the Home Page. 2. Click on each link in the main navigation bar (e.g., "אודות", "חוגים", "אירועים", "גלריות", "צור קשר").	Overall Navigation Links	בדיקה המבוצעת ע"י חיבור של יחידות למודולים בודדים, המתחברים למערכת או לתת מערכת ומשפיעים אחד על השני.	Integration		Gallery	29
Low	Fail	DOM Warning / Accessibility Issue	DOM Warning		Warning [DOM] Found 4 elements with non-unique id #formbutton appears in the console.	Every HTML element should have a unique ID.	1. Navigate to the "Contact Us" tab. 2. Inspect the HTML code of the page (using developer tools).	Element ID Uniqueness (Buttons)	Element ID Uniqueness (Buttons)	Accessibility		contact	30
Low	Fail	DOM Warning / Accessibility Issue	DOM Warning		Warning [DOM] Found 2 elements with non-unique id #mail appears in the console.	Every HTML element should have a unique ID.	1. Navigate to the "Contact Us" tab. 2. Inspect the HTML code of the page (using developer tools).	Element ID Uniqueness (Email Fields)	Element ID Uniqueness (Email Fields)	Accessibility		contact	31
Medium	Pass					CAPTCHA should be displayed correctly and prevent invalid form submission before verification. Successful submission after verification.	1. Navigate to the "Contact Us" tab. 2. Attempt to submit the form without passing CAPTCHA. 3. Pass CAPTCHA correctly and attempt to submit.	CAPTCHA/reCAPTCHA Validation	CAPTCHA/reCAPTCHA Validation	Functionality		contact	32
Medium	Pass					All relevant fields for the "Contact Us" form are present and displayed correctly.	1. Navigate to the "Contact Us" page. 2. Verify the presence of all required fields (Name, Email, Subject, Message). 3. Verify correct input types (text, email).	Form Fields - Presence and Validity	Form Fields - Presence and Validity	Functionality		contact	33
Medium	Pass					A clear and user-friendly error message should be displayed in case of submission failure (e.g., "Submission error, please try again").	1. Attempt to submit the form under various network conditions (e.g., disconnect network). 2. Attempt to test behavior in case of server error (if possible to simulate).	Form Submission - Failure (Server/Network Test)	Form Submission - Failure (Server/Network)	Functionality		contact	34
Highest	Pass					A confirmation message for successful submission should be displayed, or the user should be redirected to a "Thank You" page.	1. Fill in all fields in the "Contact Us" form with valid data. 2. Click the "Send" button.	Form Submission - Success	Form Submission - Success	Functionality		contact	35
Medium	Pass					The map is displayed correctly, the location is accurate, and basic interactions (zoom, drag) are possible.	1. Navigate to the "Contact Us" tab. 2. Verify map display (if present). 3. Attempt to zoom, drag, and click on icons on the map.	Map Display and Interactivity	Map Display and Interactivity	Functionality		contact	36
Low	Fail		Firebase Messaging Error		Notifications are blocked. Errors messaging/notifications-blocked and messaging/permission-blocked appear in the console.	The site should attempt to display a notification permission request or display existing notifications.	1. Navigate to the "Contact Us" tab.	Notification System	Notification System	Functionality		contact	37
Medium	Pass					Clicking a phone number should prompt a dialer; clicking an email should open an email client with the recipient's address pre-filled.	1. Navigate to the "Contact Us" tab. 2. Click on a phone number (if displayed) or an email address.	Phone/Email Links (Click-to-Call/Mailto)	Phone/Email Links (Click-to-Call/Mailto)	Functionality		contact	38
Highest	Fail		JS Error		The range slider does not respond (or is not displayed). Red error Uncaught TypeError: $(...).ionRangeSlider is not a function appears in the console.	The range slider should respond to dragging and change values/display data.	1. Navigate to the "Contact Us" tab. 2. Attempt to drag the range slider (if visually present on the page).	Range Slider (General)	Range Slider (General)	Functionality		contact	39

Priority	Pass / Fail	Analyst Notes	Error Type	Comments / Jira Bug ID	Actual Result	Expected Result	Steps to Execute	Test Item	Test Purpose	Test Type	Jira Code	Module	'on
Low	Pass					All form fields should clear to their default values.	1. Fill in fields in the "Contact Us" form. 2. Click the "Clear"/"Reset" button.	Reset/Clear Form Button	Reset/Clear Form Button	Functionality		contact	40
Medium	Fail		JS Error		Error Uncaught (in promise) TypeError: Cannot set properties of null (setting 'textContent') appears in the console.	All elements and scripts should load and function without errors.	1. Navigate to the "Contact Us" tab.	Element/Code Loading (JavaScript)	Element/Code Loading (JavaScript)	Functionality		contact	41
Medium	Fail		Runtime Error (Extension related)	Might indicate issues in the site's HTML confusing extensions.	Errors Unchecked runtime.lastError: Cannot create item with duplicate id LastPass ... appear in the console.	The site should function correctly and not cause errors related to interaction with standard extensions.	1. Navigate to the "Contact Us" tab with extensions like LastPass active.	Interaction with Browser Extensions	Interaction with Browser Extensions	Integration		contact	42
Medium	Fail		Runtime Error		Error Unchecked runtime.lastError: Could not establish connection. Receiving end does not exist. appears in the console.	Internal communication within the browser (e.g., with extensions) should work without errors.	1. Navigate to the "Contact Us" tab.	Internal Communication/Browser Extensions	Internal Communication/Browser Extensions	Integration		contact	43
Medium	Fail		JS Error		Error Uncaught TypeError: Failed to execute 'observe' on 'MutationObserver': parameter 1 is not of type 'Node'. appears in the console.	The site code should perform DOM operations correctly.	1. Navigate to the "Contact Us" tab and perform actions that modify the DOM (e.g., typing text, changing fields).	MutationObserver Execution	MutationObserver Execution	Integration		contact	44
Medium	Fail		Network Error: Forbidden		Font Awesome icons are not displayed (may appear as empty squares). GET https://kit.fontawesome.com/... 403 (Forbidden) error appears in console/Network tab.	Font Awesome icons should be displayed normally.	1. Navigate to the "Contact Us" tab. 2. Verify the display of icons on the page (e.g., social media icons, arrows, etc.).	Font Awesome Icons (General)	Font Awesome Icons (General)	GUI		contact	45
Low	Fail		Configuration Warning	Best Practice Issue	Warning It looks like you're using the development build of the Firebase JS SDK. appears in the console.	The site code should use the Production version of Firebase SDK.	1. Navigate to the "Contact Us" tab.	Firebase SDK Usage (Production)	Firebase SDK Usage (Production)	Maintainability		contact	46
Medium	Pass					A clear error message should be displayed indicating the format is invalid.	1. Navigate to the "Contact Us" page. 2. Enter an email address in an invalid format (e.g., "test" without @).	Validation - Email Format	Validation - Email Format	Functionality		contact	47
Medium	Pass					Clear and relevant error messages should be displayed for mandatory fields that were not filled.	1. Navigate to the "Contact Us" page. 2. Leave required fields empty and attempt to submit.	Validation - Required Fields	Validation - Required Fields	Functionality		contact	48
